Hi Kirk,

10 officers and a few cars (if you have them) will work. I think we could spell some of them off in our vehicles. They will be briefed on the mission, but I have attached the most recent ops plan for your reference and discreet dissemination.

We are likely in a protracted scenario and would like to at least plan for the next 14 days. They will get direction from the supervisors at the traffic points near or at the scene. It has been mostly non-confrontational with a couple of contentious moments following interactions between protestors and our members as we evicted them from some adjacent properties. Interestingly, the majority of the protestors to this point have not really been from any anti-police pedigree. It is somewhat cordial.

That said, we have choked off the small volume of protestors at the Ambassador Bridge (100-150 in number) and due to our intersection control, many of the protestors who planned to attend did not make it and may be populated among the large traffic procession nearby.

As always, we appreciate the support your team gives us without hesitation. Thank-you.

Jay

Jason Bellaire

Hi Jason,

We just received a request from Chief Mizuno for officers to assist with traffic points 3am-3pm. Can you or Superintendent Crowley send me logistics; # of officers needed, vehicles required, communication and any estimate on duration we will need to assist, two weeks/three weeks (best guess).

I think we will get volunteers for the overtime to assist, but vehicles may be an issue. I will have a couple vehicles available to get officers to Windsor but we may need WPS cars for the traffic points. Also, I assume you guys have direction for each officer on expectations/mission statement etc. I don't want any of our members going off script and causing a problem.

Let me know and we will see what we can do.

Thanks,
Kirk
